

GARY W. ERVIN

Corporate Vice President and President
Northrop Grumman Aerospace Systems

Gary W. Ervin is corporate vice president and president of Northrop Grumman's Aerospace Systems sector, a premier provider of manned and unmanned aircraft, space systems and advanced technologies critical to our nation's security.

Aerospace Systems, headquartered in Redondo Beach, Calif., is an approximately \$10 billion business with more than 22,000 employees and with major operations in Redondo Beach, El Segundo, Palmdale and San Diego, Calif.; Bethpage, N.Y.; and Melbourne and St. Augustine, Fla. Ervin is a member of the company's corporate policy council.

Prior to his current assignment, Ervin served as corporate vice president and president of Northrop Grumman's former Integrated Systems sector, headquartered in El Segundo, Calif. The sector created the company's large-scale system integration capabilities, which focused on providing customers a new dynamic for the precise execution of national security operations. The sector drew upon the experience and knowledge of its nearly 13,500 employees to provide innovative solutions for the national security needs of the United States government and its international alliances.

Ervin joined Northrop Grumman in 2001 as vice president and deputy of the company's Air Combat Systems business segment and was appointed sector vice president of the former Integrated Systems in January 2002. Previously, he served for 22 years with Lockheed Martin Corporation, in a variety of leadership roles, including vice president of Advanced Development Programs. He earned a bachelor's degree in mathematics systems science from the University of California, Los Angeles.

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in aerospace, electronics, information systems and technical services to government and commercial customers worldwide. Please visit www.northropgrumman.com for more information.
