

CHARLES B. WANDS

Sector Vice President, Business Management
and Chief Financial Officer
Northrop Grumman Aerospace Systems

Charles “Chuck” Wands is sector vice president, Business Management, and chief financial officer for Northrop Grumman Aerospace Systems, a premier provider of manned and unmanned aircraft, space systems, missile systems and advanced technologies critical to our nation’s security.

Wands leads business management across all the divisions of Aerospace Systems and ensures the integration of sector financial and business strategies in support of corporate objectives on behalf of the sector president. Prior to assuming his current assignment, he was sector vice president, Business Management, and chief financial officer at the former Integrated Systems sector.

Previously, Wands served as vice president of Business Management and CFO for the the Integrated Systems sector’s Western Region, where he had financial and contract management responsibilities for multiple programs in the design, development and production of manned and unmanned aircraft systems. Prior to that, he was vice president and CFO at Teledyne Ryan in San Diego, Calif., joining Northrop Grumman when the company acquired Ryan Aeronautical in 1999.

Wands has leadership and financial management experience in the alternative energy, financial services, and defense industries. He served six years in the U.S. Army, where he performed strategic resource and operations analysis in support of military operations. His final assignment was with the 500th Military Intelligence Group.

Wands earned his B.A. in business administration while attending Chaminade University in Honolulu, Hawaii. He completed graduate studies in business at Butler University, Indianapolis, Ind., and St. Mary’s University in Moraga, Calif.

Northrop Grumman Corporation is a leading global security company whose 120,000 employees provide innovative systems, products, and solutions in aerospace, electronics, information systems, shipbuilding and technical services to government and commercial customers worldwide.
